5-ZONE UV PROOF MATTRESS

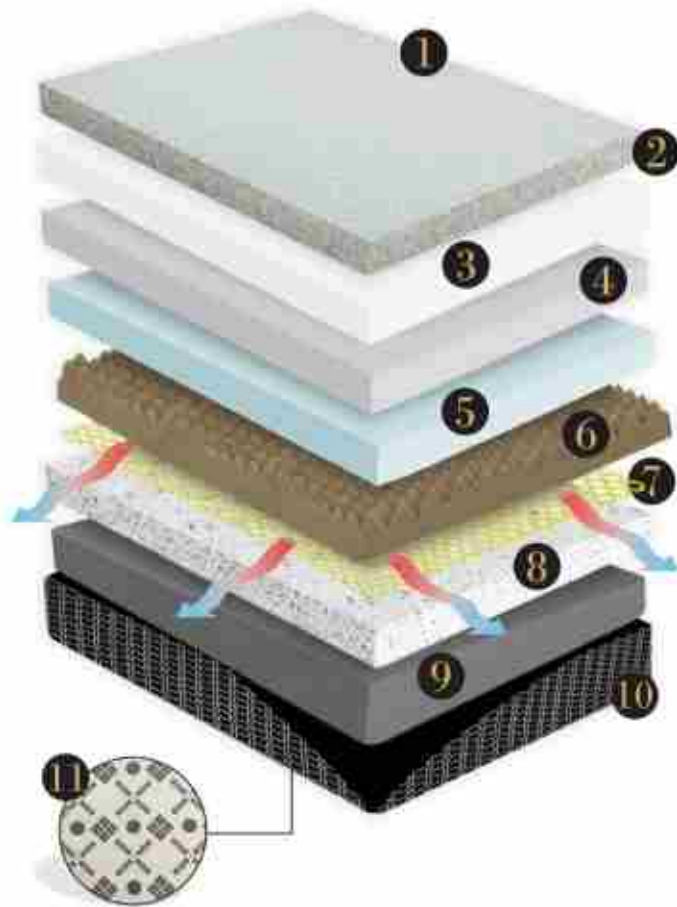

Designed for Better Sleep

REVOLUTIONARY COMFORT OF THE HYBRID MATTRESS.

Experience a deep, relaxing rest on our smart, healing Gold infused fabric, Pneumatic HR Foam and Nano Pocket Springs. Ortho Koil delivers reinforced support under the heaviest part of your body with 20% more coils—while also giving you that "sleep-on-top" feeling and comfort you expect from innerspring. It is designed with the pressure point relief of memory foam and reliable support of a traditional spring mattress. The individually packed nano springs provide good support to the body with minimal partner disturbance. The specialised UV Proof fabric deflects the negative energy of the UV rays accumulated by our body throughout the day.

3-ZONE ANTI STATIC MATTRESS

Responsive Science For Restorative Sleep.

In modern lifestyle, we are used to an air-conditioned office or bedroom, due to which static charges get easily picked up by our bodies. The accumulation of static electricity build up in our bodies easily turns into a source of tension and can make us feel awkward. Excess electrons do not discharge easily as our bodies can withstand very high-voltages of up to 30,000 V. Now, if we were to carry our highly charged bodies to bed, our tense bodies would prevent us from relaxing and we would not be able to experience the deep sleep stages necessary for our health and well-being. The Statix Technology relies on a specially developed mattress fabric that won't let static build up, and frees up the already built up static as soon as you get into bed.
